

## Slag Shield™

### MATERIAL DESCRIPTION

<b>Roll Weight</b>	<b>28 OZ/YD<sup>2</sup></b>
<b>Roll Width</b>	<b>60" &amp; 72"</b>
<b>Temperature Resistance</b>	<b>1000°F</b>
<b>Standard Color</b>	<b>Black</b>
<b>Content</b>	<b>Fiberglass coated with acrylic</b>
<b>Weave</b>	<b>Plain</b>
<b>After Flame Time</b>	<b>Less than 1 sec. (Average over test samples)</b>
<b>Char. Length</b>	<b>1/8" (Average over test samples)</b>
<b>Warp Strength, lbs/in</b>	<b>50 lbs/FT<sup>2</sup></b>
<b>Fill Strength, lbs/in</b>	<b>45 lbs/FT<sup>2</sup></b>

**Meets or exceeds NFPA 701 Specification for materials that withstand high temperature without supporting combustion. Other: Material should be tested for its suitability in any application. Users should also familiarize themselves with the MSDS before handling.**
