

WELDING CURTAIN PARTITIONS

Custom Manufactured to Your Specs, Steel Guard's Welding Curtain Partitions use the Highest Quality and Strongest Vinyl's on the Market. Create Weld Cells or Booths for MIG, TIG, SMAW or Other Welding Applications

Benefits

- Protect & Contain Welding Arc, Fumes, and Sparks
- Block 100% UV Light from Weld Flash to Onlookers
- Create More Floor Space by Isolating Welding Areas
- Increase Productivity & Reduce Injuries
- Moveable Track System Allows Areas to be Enclosed or Fully Open to Adapt to Changing Needs

Easy Installation

Install them with your Staff, A Drill and a Ladder or Lift are all that's Usually Needed. No Permits Required.

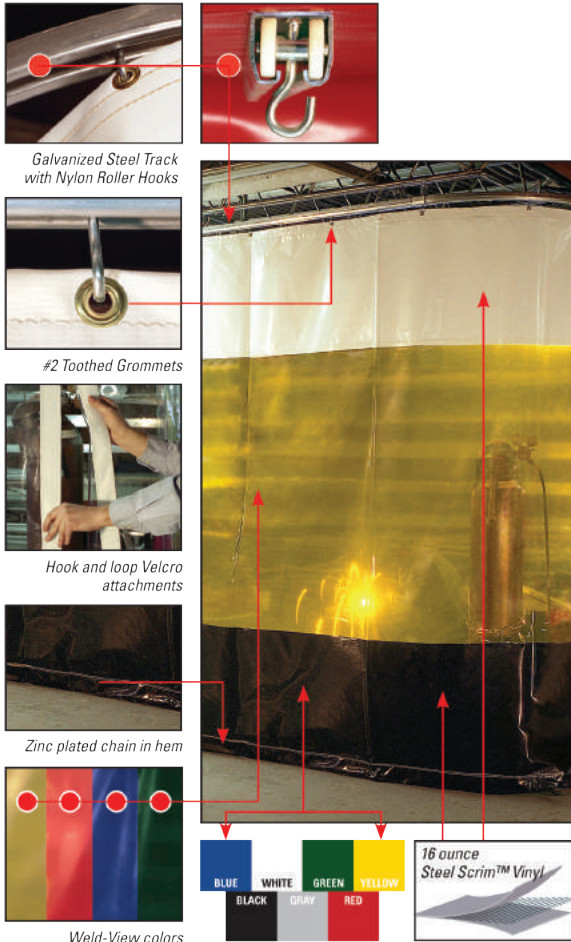

40 Mil Thick Weld-View Material Available with Webbing Reinforcement

Materials Meet CFM & NFPA-701 for Flame Resistance. Four Weld-View Colors Available for varying Transparency & Applications

*Ask your Rep About Our Iron-Clad Warranty, the Strongest in the Industry

WELDING CURTAIN PARTITIONS

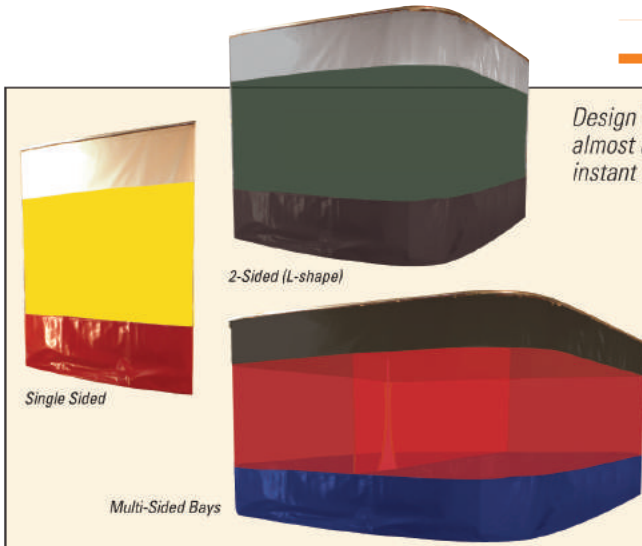

Steel Scrim™ Welding Curtains – the most durable protection available on the market from:

- Weld Flash
- UV Light
- Welding Arc
- Cutting & Grinding

Features

- Exterior seams use a rot-resistant nylon thread sewn with a double-lock stitch. Heavy-duty polyester webbing is inserted in the top hem for extra strength. Not available in common welding curtains.
- Interior seams are heat welded at +1000°F for an air, and liquid tight seal.
- Velcro hook and loop attachments are sewn on the sides of the curtains to attach uniformly in any configuration.
- 3/8" galvanized steel chain is inserted into the bottom pocket for stability against drafts.

Height	Part Number w/Track Hardware	Part Number Curtain Only
6'	WC SST 06	WC SS NT 06
7'	WC SST 07	WC SS NT 07
8'	WC SST 08	WC SS NT 08
9'	WC SST 09	WC SS NT 09
