

AUTO GUARD CURTAIN WALL

Add-On Accessories

NEW

Auto-Guard™ Filter Panels

Easily filter in clean, dust free air into your paint booth operation.

Floor Sweep Panels

Keep dust, wash spray, paint, and chemicals, sealed in your work area.

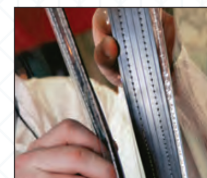

Floor Mount D-Ring Attachments

Keep your curtain securely mounted to the floor from drafts in paint booth operations, or wherever powerful drafts are a problem.

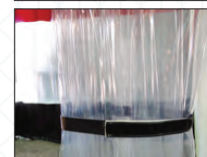

Upper Valance Panels

Custom Curtain Valances seal in areas above the curtain from dust, debris, or harmful chemicals.

Magnetic Strip Attachments

Allow extra flexibility with quicker "opening and closing" of curtain panels.

Tie Backs

Velcro tie backs allow you to compress your curtain even more to allow maximum open floor space.

Optional Color Schemes

Design colorful curtain combinations by choosing the top, middle, and bottom color scheme of your choice.

Privacy Curtain Panels

Make a solid opaque Panel by deleting the optional window from your curtain system to keep work areas private.

AUTO GUARD CURTAIN WALL

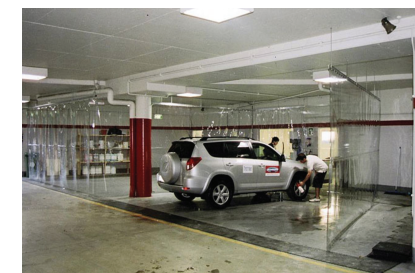

Stock Size Curtains or Custom Manufactured to Your Specs, Steel Guard's Auto-Guard™ Curtain Walls Create More Useable Space in Your Collision Repair Facility. Use them in Paint Booths, Wash Bays, Prep Areas, Grinding, Welding, & More.

Benefits

- Separate Body Shop Work Areas to Enlarge Useable Floor Space
- Increase Productivity – By Isolating Separate Work Areas
- Create Work Zones Without Costly Permits
- Confine Paint, Dust, Water, & Other Contaminants
- Block Sparks and Flying Debris
- Improved Facility Appearance
- Moveable Track System Allows Areas to be Enclosed or Fully Open to Adapt to Changing Needs
- Fraction of the Cost of Brick & Mortar & Sheet Rock Walls

Divide Prep and Grinding Areas to Contain Dust & Debris

Optional Full Clear Auto Guard Curtains for Use in Wash Bays

Materials Meet CFM & NFPA-701 for Flame Resistance, as well as NFPA-33 for Finishing Stations.
